## **SECTION 1: SCOPE**

1.01 - These rules are intended to govern all football activities in the Suffolk County Police Athletic League football program.

1.02 - The general objective of P.A.L. Junior Football is to inspire youth, regardless of race, creed, or national origin and to practice the ideals of sportsmanship, physical fitness and scholarship. The specific objectives of the program are to familiarize all participants with the fundamentals of football, to provide an opportunity to play the game in a supervised, organized and safety-oriented manner and to keep the welfare of participants free of any adult ambition and personal glory

## **SECTION 2: ELIGIBILITY**

2.01 - All participants must be a member of the Suffolk County Police Athletic League. This includes females who participate as cheerleaders.

## **SECTION 3: DETERMINATION OF AGE**

3.01 - Ages will be verified by birth certificates (or passports) as received in official extract from the state in which the player was born. This extract must bear the imprint of the official state seal. No Xerox copies will be accepted. Each organization shall verify the date of birth using the services of a notary public.

3.02 - From time to time, a player or his parents will state that they are unable to secure proof of date of birth from the state in which the player was born. In such cases, the police officer director may establish alternative criteria to determine the age of such player. These criteria must also include examination of the official notice from the state in which birth is claimed to the effect that there is no record of birth date on file. Ages will be verified through the following manner.

- (a) School record as to the date of birth parents gave when enrolling their child in the first grade. (Most schools will cooperate with the league once the reason for age check is explained).
- (b) Baptismal certificates are considered reliable proof of date of birth. No Xerox copies.
- (c) Previous year official certification card is acceptable
- (d) Passport
- (d) Family recorded documentation is not acceptable.

## **SECTION 4: GENERAL RULES**

4.01 - The home team is responsible for providing a satisfactory game ball. (Suffolk County PAL football).

4.02 - The home team is responsible for providing a Game Site Supervisor. The supervisor must be non-partisan and is an extension of the PAL/Officiating staff.  
Responsibilities: Seek out and introduce themselves to the officiating crew. Seek out and coordinate visiting teams upon their arrival. Coordinate weigh-ins 45 minutes prior to the scheduled game time. Maintain crowd control. Be in possession of a Med Kit – Federation Rule Book – PAL Rule Book – PAL Weigh in Chart.

### **SECTION 15: POLICIES**

15.01 - It will be the policy of this PAL Football League; in the event that one organization becomes so large (enrollment) the other teams are unable to compete on the football field,

A vote of the PAL Board of Directors will determine if those organizations should field additional teams in the division that they are superior in.

15.02 – Teams shall be placed in divisions according to record and power ratings. Any organization that maintains more than one team in the same age division, must select their teams so that one team is prepared to field a team in Division 1.

## **SECTION 16; EIGHTEEN POINT RULE**

16.01 - Before the game each coach shall present the officials with the numbers of their starting backfield. These players must start the game and remain in the game for the entire first series (except for injuries). The series ends when the opposing team acquires the ball, ex: turnover, score or failure to reach the line to gain. Violation of this rule will result in an illegal participation penalty and the team shall be assessed a fifteen yard penalty and loss of down, If found to be intentional; a one game suspension will be assessed.

16.02 - The Rule goes into effect any time the score differential reaches 18 points. The extra point try is considered a continuation play and part of the touchdown.

16.03 - Upon reaching an 18-point lead, but after the extra point, the team ahead must replace its starting backfield, including quarterback.

On teams of 15 or more players, these players must leave the game on offense. (Clear the bench)

On teams of 14 or less they must play offensive line (tackle to tackle). Under no circumstances will they be permitted to carry the ball.

16.04 - The team ahead on defense shall switch to a 6-2-3 defense, two linebackers shall drop back 5 yards off the ball, and three safeties shall line up 5-yards behind the linebackers. They may line up anywhere across the field as long as they stay in a 6-2-3.

16.05 - Defensive ends are to line up 7 yards outside the offensive tackles.

16.06 - No blitzing will be permitted. Blitzing shall be defined as ANY defensive player moving forward before the ball is snapped or positioning themselves closer to the ball than permitted by rule. 1<sup>st</sup> violation is a warning and replay of down if necessary. After that, a 5-yard penalty will be assessed plus an automatic first down.

16.07 - There will be no mandatory substitutions on defense.

16.08 - Team down by 18 Points - At Half Time the losing team gets the choice to start the second half regardless of which team won the coin toss.

16.09 - As soon as the scoring differential is under 18, the defense may resume playing their normal defense.

*The PAL Board recommends that when a team is ahead by 18 or more they run the ball up the middle as much as possible, also no passing.*

*Any coach found to be intentionally running up the score will be suspended and their organization fined along with loss of bond.*

## **SECTION 17: TWENTY-FOUR POINT RULE**

- (d) Series ends when team scores by kick or touchdown, including but not limited to P.A.T. or turns over the ball by fumble; interception or fails to get a first down. A kick is permitted on any down.
- (e) The other team has a chance to win or tie from the 20 yard line
- (f) If the score remains tied after the first set; the coin toss loser has first choice of the aforementioned three options; with NO coin toss.
- (g) One time out per team; per set; no carry over.
- (h) The offensive team shall be awarded another series if a scrimmage kick is recovered after it first touches the receiving team between the goal lines or after an automatic first down penalty. Penalties that carry an automatic 1<sup>st</sup> down are; *pass interference; roughing the kicker; holder; snapper or passer.*
- (i) If a dead ball foul by the defense follows a failed 4<sup>th</sup> down play; the ball shall be placed the penalty distance from the 20 yard line (1<sup>st</sup> and 10) it is now the defensive teams ball; or it is enforced in the next set if necessary. P.S.K. enforcement is not applicable
- (j) Keep repeating this procedure until there is a game winner.

19.04 - League Responsibilities

- (a) There is a chain of command for league situations which all reps must convey to their coaching staff:
  - 1. Parent speaks to coach regarding his/her concerns – if this remains unresolved:
  - 2. Parent speaks to League board regarding his/her concerns – if this remains unresolved:
  - 3. Parent speaks to League P.A.L. representative – who in-turn presents the situation to the P.A.L. Board – At no time should a parent be in verbal contact to any P.A.L. board member. If the parent would like to contact P.A.L. they are to email the board...No complaint calls will be entertained.
- (b) The home team is responsible for exhibiting good sportsmanship and maintaining a safe environment for their members and visiting teams. No person is permitted on the field/sidelines unless they VISIBLY show a P.A.L. identification tag; unless they are on the Down marker/chain crew – there are NO exceptions.

Heat Index and Heat Safety Tips

### **Modified Heat Alert**

**When the heat index reaches 88 (equivalent to T.H.I. of 73) practice sessions or contests must include forced, frequent water breaks, a Minimum every 10-15 minutes, preferably in shade. Players must remove helmets; those players not participating in contact activities must remove helmets.**

### **Full Heat Alert**

**When heat index reaches 95 (equivalent to T.H.I. of 78) no physical activity is permitted.**

North American summers are hot; most summers see heat waves in one section or another of the United States. East of the Rockies, they tend to combine both high temperature and high humidity although some of the worst have been catastrophically dry. Heat kills by taxing the human body beyond its abilities.

Children are particularly susceptible to heat reactions, especially during heat waves in areas where a moderate climate usually prevails.

The National Weather Service (NWS) has stepped up its efforts to alert more effectively the general public and appropriate authorities to the hazards of heat waves-those prolonged excessive heat/humidity episodes.

Based on the latest research findings, the NWS has devised the "Heat Index" (HI), (sometimes referred to as the "apparent temperature"). The HI, given in degrees F, is an accurate measure of how hot it really feels when relative humidity (RH) is added to the actual air temperature.

To find the HI, look at the [Heat Index Chart](#). As an example, if the air temperature is 95°F (found on the left side of the table) and the RH is 55% (found at the top of the table), the HI-or how hot it really feels-is 110°F. This is at the intersection of the 95° row and the 55% column.

### **General heat safety tips:**

**Slow down.** Strenuous activities should be reduced, eliminated, or rescheduled to the coolest time of the day. Individuals at risk should stay in the coolest available place, not necessarily indoors.

**Dress for summer.** Lightweight light-colored clothing reflects heat and sunlight, and helps your body maintain normal temperatures.

**Put less fuel on your inner fires.** Foods (like proteins) that increase metabolic heat production also increase water loss.

Drink plenty of **water or other non-alcohol fluids**. Your body needs water to keep cool. Drink plenty of fluids even if you don't feel thirsty. Persons who (1) have epilepsy or heart, kidney, or liver disease, (2) are on fluid restrictive diets or (3) have a problem with fluid retention should consult a physician before increasing their consumption of fluids.

**Do not** take salt tablets unless specified by a physician.

**Spend more time in air-conditioned places.** Air conditioning in homes and other buildings markedly reduces danger from the heat. If you cannot afford an air conditioner, spending some time each day (during hot weather) in an air conditioned environment affords some protection.

**Don't get too much sun.** Sunburn makes the job of heat dissipation that much more difficult.

### **Heat Disorder Symptoms**

**SUNBURN:** Redness and pain. In severe cases swelling of skin, blisters, fever, headaches. First Aid: Ointments for mild cases if blisters appear and do not break. If breaking occurs, apply dry sterile dressing. Serious, extensive cases should be seen by physician.

**HEAT CRAMPS:** Painful spasms usually in muscles of legs and abdomen possible. Heavy sweating. First Aid: Firm pressure on cramping muscles, or gentle massage to relieve spasm. Give sips of water. If nausea occurs, discontinue use.

**HEAT EXHAUSTION:** Heavy sweating, weakness, skin cold, pale and clammy. Pulse thready. Normal temperature possible. Fainting and vomiting. First Aid: Get victim out of sun. Lay down and loosen clothing. Apply cool, wet cloths. Fan or move victim to air conditioned room. Sips of water. If nausea occurs, discontinue use. If vomiting continues, seek immediate medical attention.

**HEAT STROKE (or sunstroke):** High body temperature (106° F. or higher). Hot dry skin. Rapid and strong pulse. Possible unconsciousness. First Aid: HEAT STROKE IS A SEVERE MEDICAL EMERGENCY. SUMMON EMERGENCY MEDICAL ASSISTANCE OR GET THE VICTIM TO A HOSPITAL IMMEDIATELY. DELAY CAN BE FATAL. Move the victim to a cooler environment Reduce body temperature with cold bath or sponging. Use extreme caution. Remove clothing, use fans and air conditioners. If temperature rises again, repeat process. Do not give fluids. Persons on salt restrictive diets should consult a physician before increasing their salt intake.

*The evaluation of any athlete, whether as a part of health evaluations prior to activity or as a diagnosis of an injury as the consequence of sports activities, is specific to that individual and the history and current state of the individual presented. Advice, diagnosis and treatment is individualized according to numerous factors, including patient health and age information, medical history and symptoms. All athletes should be cleared by a physician or other appropriate medical professional before engaging in physical activities and, after injury, diagnosis and treatment, for return to play.*

## **19-2 Lightning**

In case of lightning, the game in progress is immediately over. Clear the players off the field and send them home. The referee makes the call of suspending play

If there is a following game, wait out the lightning and try to get the game in.

The home team makes the call of cancelling the rest of the day.

## **19-3 First Practice**

No practice shall be permitted until the last Saturday in July.

Uniform evaluations' are permitted before this date for the purpose of assigning players to specific teams.

## Suffolk County PAL

### Safety 101

Safety education is an integral part of the SCPAL youth sports programs. Coaches, parents and athletes are educated regarding injury prevention as well as guidelines to follow if an injury occurs. In addition, other programs that focus on drug and alcohol abuse and anti-gang, anti-hazing are provided on an on-going basis.

These programs are integrated into our clinics, workshops, jamborees, camps and certifications. They include the following:

1. Be-A- PAL- an anti-hazing, anti-bullying and anti-gang program.
2. Smart Cop- a drug and alcohol prevention program.
3. Concussion Awareness- an effort to educate coaches, parents and athletes to recognize the signs and symptoms of a concussion and Suffolk County PAL guidelines.
4. Heat exhaustion prevention and signs and symptoms.
5. AED awareness and CPR training.

There are a variety of ways that the aforementioned programs are provided to facilitate these initiatives:

1. Guest speakers who are experts in the field are invited to present the information as well as their personal experiences.
2. Ensuring the use of proper equipment in all youth sport programs and seminars set up to properly fit the particular equipment.
3. Printed material for coaches, kids and parents.

#### Concussion Awareness - Heads Up 101 Program

This program is offered to our core sports football, lacrosse and baseball. Basketball and soccer are not considered contact sports but we feel it is important to provide them with this vital program.

Implementation of the Heads Up 101 program includes:

1. PAL safety guidelines which includes rules of that particular sport.
  - A. For example in football the proper tackling technique; we teach and preach not to lead with your head.
2. Reinforcement of the proper equipment and how it fits.
  - A. Example: personal protective equipment such as helmet, shoulder pads, and mouth guard.

## WHAT IS A CONCUSSION?

A concussion is a brain injury. Concussions are caused by a bump, blow, or jolt to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even a "ding" or a bump on the head can be serious. Concussions can occur without loss of consciousness. Concussions can occur in any sport. To help recognize a concussion, watch for the following:

1. A forceful blow to the head or body that results in rapid and sudden movement of the head.
2. Any change in the athlete's behavior, thinking or physical functioning.

## WHAT ARE THE SIGNS AND SYMPTOMS OF CONCUSSION?

You cannot see a concussion. Signs and symptoms of concussion can show up right after the injury or can take days or weeks to appear.

### SIGNS TO OBSERVE:

Appears dazed or stunned  
Is confused about assignment  
Is unsure of game, score or opponent  
Forgets plays  
Moves clumsily  
Answers questions slowly or slurs their words  
Loses consciousness  
Shows behavior or personality changes  
Can't recall prior to event

### SYMPTOMS REPORTED BY ATHLETE

Headache  
Nausea  
Balance problems or dizziness  
Double or fuzzy vision  
Sensitivity to light or noise  
Feeling sluggish or slowed down  
Just not feeling right  
Feeling foggy or groggy  
Concentration or memory problems

## Confusion

These signs and symptoms are on an index card that is provided to every Suffolk County PAL coach.

Heads Up 101 posters will be provided to every member organization which includes the signs and symptoms of concussion.

### WHAT SHOULD YOU DO IF YOU THINK THE PLAYER HAS A CONCUSSION? SUFFOLK COUNTY PAL ACTION PLAN:

1. Remove the athlete from play (\* special attention must be paid to older players who may not want to miss part of the game). Reinforce it is better to miss one game than missing the whole season or never being able to play again.
2. Ensure that the athlete is evaluated right away by an appropriate health care professional, while simultaneously' informing the athlete's parents or guardians about the possible concussion.
3. **\*\* ALLOW THE ATHLETE TO RETURN TO PLAY ONLY WITH WRITTEN PERMISSION FROM A HEALTH CARE PROFESSIONAL.**

Suffolk County PAL believes the welfare and safety of our players is #1 priority and nothing should be second-guessed concerning a possible concussion or any other injury.
